Welcome Message

Dear Colleagues & Friends:

On behalf of the IPEG Leadership and myself, I personally invite you to attend the 26th IPEG Congress for Endosurgery in Children, held in conjunction with the British Association of Pediatric Surgeons (BAPS), in London July 19–22, 2017, at the Hilton Metropole.

IPEG will feature:

- Presidential address & Lecture: The Future is You.
- Launch of Mastery Learning Hands On Course (Full day)
- Formerly the poster sessions now quick shots with focused presentation times and meeting app visibility
- Committee meetings meet on Tuesday– We welcome all members to get involved!

This year the Annual Congress will also feature many joint IPEG/BAPS Activities such as:

- Karl Storz Lecturer: Michael Sjoo (Surgeon and SAS Pilot)
- Keynote Lecturer: Whit Holcomb, MD, Journal of Pediatric Surgery Editor
- Keynote lecture by Richard Branson (CEO, Virgin Airlines)
- Welcome reception and Exhibits
- Launch of a learning center within the exhibit area open to all participants
- Joint half- day IPEG/BAPS session on Thursday and Friday
- Wednesday Trainee Day
- Registration access to both IPEG & BAPS General Sessions
- Joint closing party – Who will participate in the dance off this year?

I am excited at the many developments and extended offerings at this year's annual congress and look forward to seeing each of you at the IPEG family reunion (Congress).

Warm wishes,

David van der Zee
IPEG President

General Information

Who Should Attend?

The 26th Annual Congress of the International Pediatric Endosurgery Group (IPEG) has elements that have been specifically designed to meet the needs of practicing pediatric surgeons, urologists, and other related specialties, physicians-in-training, GI assistants, and nurses who are interested in minimally invasive surgery in children and adolescents. The IPEG Program Committee recommends that participants design their own attendance schedule based on their own personal educational objectives.

2017 Meeting Objectives

The objectives of the activity are to educate pediatric surgeons and urologists about developing techniques, to discuss the evidence supporting adopting these techniques, to provide a forum for discussions at a scientific level about the management principles regarding minimally invasive surgical techniques and to reveal scientific developments that will affect their patient population.

Specific Objectives include:

1. Presentation of new and developing minimally invasive surgical techniques in a scientific environment.
2. Interaction with experts in the fields of minimally invasive pediatric surgery and urology via panel discussions and informal networking.
3. Debates about controversial issues regarding indications, techniques and outcomes of minimally invasive surgery in infants and children.
4. Encourage and establish international networking in the management of minimally invasive surgical interventions for infants and children.

At the conclusion of the activity, pediatric surgeons and urologists will be able to safely incorporate minimally invasive surgical techniques into their practice by applying the evidence-based medical knowledge and skills learned, recognizing pitfalls and monitoring patient outcomes.

Event Dress Code

Please note that the dress code for the entire conference is business casual.

Registration Hours

Tuesday, July 18	2:00 pm – 5:00 pm
Wednesday, July 19	6:30 am – 5:00 pm
Thursday, July 20	6:30 am – 5:00 pm
Friday, July 21	6:30 am – 5:00 pm
Saturday, July 22	8:00 am – 1:00 pm

Quickshot Viewing

Friday, July 21	7:30 am – 5:00 pm
-----------------	-------------------

General Session Speaker Prep

Wednesday, July 19	2:00 pm – 5:00 pm
Thursday, July 20	6:30 am – 6:30 pm
Friday, July 21	6:30 am – 5:00 pm
Saturday, July 22	7:00 am – 11:00 am

Exhibit Hours

Wednesday, July 19	6:00 pm – 8:00 pm
Thursday, July 20	9:30 am – 4:30 pm
Friday, July 21	9:30 am – 4:30 pm

1st Floor, Foyer

Meeting Room 1-6

Why IPEG?

Now is an excellent time to become an IPEG member.

IPEG Member Benefits

IPEG exists to support excellence in Pediatric Minimally Invasive Surgery and Endoscopy through education and research; to provide a forum for the exchange of ideas in Pediatric Minimally Invasive Surgery and Endoscopy; and to encourage and support development of standards of training and practice in Pediatric Minimally Invasive Surgery and Endoscopy. Benefits of membership include:

- ◇ **Network** – A network of over 800 pediatric Surgeons Worldwide, and opportunities to meet and discuss pediatric minimally invasive surgery with leaders and innovators in the field
- ◇ **Access to State-of-the-Art Hands On Courses and Learning Center**
- ◇ **Continuing Education**
 - Innovation Opportunities
- ◇ **Registration Discounts** – Significant discounts on registration fees for the Annual Congress for Endosurgery in Children. (Note: registering for the IPEG Scientific Session, as a member, will save you the equivalent of one year's dues)
- ◇ **Affordable Dues** – Affordable dues for surgeons and surgeons-in-training in any country.
- ◇ **Awards** – As an IPEG member you can enter to win Awards such as:
 - IPEG Research Grant
 - IRCAD Award
 - Basic Science Award

For more information on awards and to see the 2016 winners please go to page 7.

To become an IPEG member visit us online at:

www.ipeg.org/member/memberapplication.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) and IPEG. SAGES is accredited by the ACCME to provide continuing medical education for physicians.

The Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) designates this live activity for a maximum of **18.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Date	Total Credits
Thursday, July 21, 2017	8
Friday, July 22, 2017	7.25
Saturday, July 23, 2017	3
TOTAL Meeting Credits	18.25

2017 Program Chairs

Simon Clarke, BSC. MBBS. FRCS (Eng) FRCS Paed Surg | PROGRAM CHAIR

Simon Clarke has served as Clinical Director at the Chelsea children's Hospital, London for children's surgical services for the past 3 years as well as honorary senior lecturer at Imperial College London. He has been at the institution as a consultant since 2005 having worked previously at Great Ormond street as well as an Associate Professor in the minimal access training unit at the Chinese University of Hong Kong. Simon received his medical degree and completed his surgical training in Oxford and London.

Simon has served on the educational committee at IPEG for over 7 years and now leads the evidence based guidelines group. Simon has an interest in simulation, model development, education and more recently robotics. Simon is currently chairman of the Education Committee for British association of Paediatric Surgeons and also serves as simulation lead for the UK national training committee. Simon established and serves as course director for the UK's first national facilitating simulation course for Paediatric Surgeons

as well as being course director for an advanced minimal access training course. Simon has helped establish one of only two robotic surgical programs for children in the UK and regularly lectures in UK and Europe on this as well as simulation and minimal access surgery. Simon has published over 60 peer reviewed articles, abstracts and book chapters and has been awarded 8 clinical Excellence awards during his consultancy.

Shawn D. St. Peter, MD | PROGRAM CO CHAIR

Shawn D. St Peter, M.D., has been on staff in the Department of Surgery at Children's Mercy Hospital since 2006. He is currently the Katherine Berry Richardson Surgeon-in-Chief, the Program Director of the Pediatric Surgery Fellowship Program at Children's Mercy Hospitals and Clinics, where he is also the Program Director of the Surgical Scholars Program and the Director of the Center for Prospective Trials.

Along with numerous past national and local professional responsibilities, Dr. St. Peter currently serves on committees for APSA, IPEG, AAP and ACS. He is the recipient of several honors and awards, the including the Golden Apple Mercy Mentor Award.

Dr. St. Peter has coauthored over 300 original publications, in addition to the extensive publication of reviews, chapters, abstracts, posters, and the national and international contribution of lectures and presentations.

Munther Haddad, MBBCH FRCS (Glasg) FRCS (Eng) FRCPCH | PROGRAM CO CHAIR

Senior Consultant Paediatric & Neonatal Surgeon
Chelsea & Westminster Hospital NHS Foundation Trust and St. Mary's Hospital

Honorary Senior Lecturer Imperial College School of Medicine

Past President of the British Association of Paediatric Endoscopic Surgeons BAPES
London, England

2017 CME Chairs

Samir Pandya, MD | CME CHAIR

Dr. Samir Pandya was awarded his Bachelor's of Science with honors in Biomedical Engineering at the University of Miami. He completed his medical training at the Medical College of Virginia and then General Surgery residency at the New York Medical College / Westchester Medical Center Campus. He went on to train in Pediatric General Surgery at Emory University / Children's Healthcare of Atlanta. Upon completion of his fellowship training in 2011 he returned to his residency program as Assistant Professor in the Department of Surgery and Pediatrics where he further developed and vastly improved the pediatric minimally invasive pediatric surgery program. Academically he enjoys working with medical students, residents and fellows and has received numerous teaching awards during his career. As a result, he was appointed to be the Associate Program director of the General Surgery residency.

His clinical focus is on advanced minimally invasive pediatric surgery with minilaparoscopy and single-incision procedures. He has a strong interest in thoracic diseases as related to pediatric patients such as chest wall anomalies, congenital lung lesions as well as surgical oncology.

In 2017, he was recruited to join the faculty at University of Texas Southwestern at Children's Medical Center in Dallas, Texas as an Associate Professor of Surgery. He will be the surgical director for the pediatric intestinal failure program as well as the associate program director of the pediatric surgery fellowship.

Dr. Pandya is actively on the IT and Emerging Technology committees of IPEG and also serves as the CME Co-Chair. Outside of pediatric surgery, Dr. Pandya enjoys running, skiing, diving, digital photography and target shooting.

Matthew Clifton, MD | CME CO CHAIR

Dr. Matthew Clifton earned his undergraduate degree in Physiology from the University of California, Los Angeles. He completed medical school at Georgetown University and returned to California for his adult general surgery residency at the University of California, San Francisco. During his residency he spent two years as a research resident in the Fetal Treatment Center at UCSF. He completed his pediatric surgery fellowship at Emory University in Atlanta.

Dr. Clifton is currently an Assistant Professor of Surgery and Pediatrics at Emory University/ Children's Healthcare of Atlanta. He assumed the role of fellowship program director in 2013, which has dovetailed nicely with his interest in surgical education, simulation, and clinical research. He has received multiple awards for teaching. He serves on the editorial board of *The Journal of Laparoendoscopic and Advanced Surgical Techniques, Part B Videoscopy* and is an ad hoc reviewer for several other journals. His interests include advanced minimally invasive surgery, hepatobiliary surgery, and surgical oncology.

SAVE THE DATE!

2016 Award Winners

Best Science Award

The Best Science Award winner is awarded a complimentary registration to IPEG's 26th Annual Congress and IPEG 3 year membership, total value of over \$1000. It is based on a blind review and the winner will be selected by the IPEG Program Committee.

IRCAD Award

As a result of a generous grant provided by Karl Storz Endoscopy, the best resident abstract presenters will be selected by the IPEG Publications Committee to receive the 2017 IRCAD Award. The Award recipients will travel to Strasbourg, France to participate in a course in pediatric minimally invasive surgery at the world famous European Institute of Telesurgery. This center at the University of Strasbourg is a state-of-the-art institute for instruction in all aspects of endoscopic surgery that is now providing a series of courses in pediatric surgery.

Research Grant

The purpose of the Research Grant is to stimulate and support high quality original research from IPEG members in basic and clinical science. Junior faculty are encouraged to apply and the proposal should place an emphasis on basic science research. One winner will receive a certificate of award and a \$5,000 grant. The deadline to submit your application is May 1, 2017.

MASTERY LEARNING* HANDS ON CLASS & LECTURE [NON CME](#)

Thoracoscopic Lobectomy and Thoracoscopic Esophageal Atresia with Tracheoesophageal Fistula Repair

CHAIR: Katherine Barsness, MD
CO-CHAIRS: Atul Sabharwal, MD

DESCRIPTION: This course is designed for pediatric surgeons seeking advanced minimally invasive skills for thoracoscopic lobectomy and tracheoesophageal fistula repair. Participants will dive deep into the specific skills and techniques of expert minimally invasive pediatric surgeons – spending a total of 8 hours concentrating on two advanced operations. Participant to faculty ratio will be 2:1 – and all participants will receive personalized instruction, feedback and debriefing – according to their individual knowledge and skills. Participants will be provided with a detailed curriculum prior to the course – including relevant videos of specific skills and techniques. At the end of the all-day course, participants will discuss opportunities to continue advancing their skills with their instructors – with individualized plans provided to each participant.

*Mastery learning is an educational approach that has two central tenets, first, educational excellence is expected and can be achieved by all learners, and second, little or no variation in measured outcomes will be seen among learners in a mastery environment. While achievements are expected to be equivalent among learners, the time to achieve mastery is not uniform. Some learners will take longer than others to achieve a mastery level of performance.

FACULTY:

Sean Marven, MD; Matthew Clifton, MD; Samir Pandya, MD; Sameh Shehata, MD; Karen Diefenbach, MD; Darius Patkowski, MD; Charles M. IPEG'S 26th ANNUAL CONGRESS

Thursday, July 20th

7:30 am – 8:20 am **SCIENTIFIC SESSION: Video I – Coolest Tricks and Extraordinary Procedures**

MODERATORS: Marcelo Martinez Ferro, MD & Matthijs W.N. Oomen, MD

8:20 am – 8:25 am **IPEG Welcome Address** NON CME

David van der Zee, MD, 2017 President

8:30 am – 9:30 am **SCIENTIFIC SESSION: Basic Science and Simulation**

MODERATORS: Georges Azzie, MD & Martin Lacher, MD

9:30 am – 10:00 am **PRESIDENTIAL ADDRESS & LECTURE: The Future is You**

SPEAKER: David van der Zee, MD, 2017 President

INTRODUCTION: Munther Haddad, MD

DESCRIPTION: IPEG is dependent of the new generation to take it into the next decade. Not only minimal invasive surgery is changing rapidly, but also society is with new modes of communication and interaction. The new generation will have to take the lead in guiding IPEG into the new decade.

OBJECTIVES

At the conclusion of this session, participants will be able to:

- The user will be more active to select its participation in society activities, convey surveys and manage activities within the society.

David C. van der Zee MD., PhD., has been a pediatric surgeon since 1991. He has been involved in minimal invasive surgery in children and neonates as of the late 1980s and has published over 150 peer reviewed papers, many of them on endoscopic surgery.

Education in endoscopic surgery has always been an important issue in his career. He is involved in education and training in IPEG, EAES, the Dutch Society of Endoscopic Surgery and his University Hospital. The Department is an internationally recognized Centre of Expertise for Esophageal Atresia.

He gave Keynote Lectures at JSES in Japan, at ELSA in Taiwan, and in Buenos Aires, Argentina. He gave lectures and held hands-on courses all around the world

including Hawaii, Bali, Singapore, Myanmar, Buenos Aires, Sydney, Bangkok and Beijing. He gave the Storz lecture at BAPS in Amsterdam in July 2016.

10:00 am – 10:30 am **Break & Learning Center Ribbon Cutting Ceremony**

10:30 am – 12:00 pm **JOINT EXPERT PANEL: “Here We Go Again” – MIS Revisional Surgery: Indications & Outcomes**

CHAIR: Steven Rothenberg, MD

CO-CHAIR: Whit Holcomb III, MD

DESCRIPTION: This session will review the indications, techniques, and outcomes for re-operative surgery for a number of complex pediatric surgical conditions. Participants will learn the indications for re-operative procedures, MIS approaches and tricks, and potential benefits and complications of this approach.

OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify the indications for re-operative surgery in a number of common pediatric surgical conditions.
- Assess the potential benefits and hazards to an MIS approach for re-operative cases.
- Identify techniques to enable them to plan a successful MIS re-operative procedure.

10:30 am Re-operative laparoscopic Nissen fundoplication – *Carroll M. Harmon, MD & Pablo Laje, MD*

11:00 am Recurrent Congenital Diaphragmatic Hernia Laparoscopic vs. Thorascopic –
Mark Wulkan, MD & Darius Patowski, MD

11:30 am Re-operative MIS approaches to Choledochocyst & in Management of Bile Duct Injuries –
Long Li, MD & Naved Alizai, MD

11:50 am Re-operative MIS surgery for ano-rectal malformations, UPJ and ureteral re-implantat complications – *Maria Marcela Bailez, MD & Holger Till, MD*

Complete Schedule

12:00 pm – 1:30 pm

Lunch

1:30 pm – 2:30 pm

JOINT SCIENTIFIC SESSION: Gastrointestinal

MODERATORS: Milissa McKee, MD (IPEG) & David Crabbe, MD (BAPS)

2:30 pm – 4:00 pm

JOINT EXPERT PANEL: “Oh Let’s Just Do It Open” – MIS vs. Open Debate

CHAIR: Carroll M. Harmon, MD (IPEG) & Mark Davenport, MD (BAPS)

DESCRIPTION: This session will be beneficial to any pediatric general surgeon or pediatric urologist. The panel will provide expert opinion regarding the pros and cons of 4 common pediatric surgical procedures comparing open versus laparoscopic approaches.

OBJECTIVES

At the conclusion of this session, participants will be able to:

- More clearly appraise the potential benefits of both open and laparoscopic approaches to 4 common pediatric operations.
- More clearly appraise the potential risks of both open and laparoscopic approaches to 4 common pediatric operations.
- Select which approach, open or laparoscopic, that they will choose to promote in their pediatric surgery practice.

2:30 pm Intussusception – Eleri Cusick, MD (BAPS) & Shawn St. Peter, MD (IPEG)

2:55 pm Inguinal Hernia – Bruce Jaffray, MD (BAPS) & Todd Ponsky, MD (IPEG)

3:20 pm Pyeloplasty – Peter Cuckow, MD (BAPS) & Holger Till (IPEG)

3:45 pm Orchidopexy – TBD (BAPS) & Philipp Szauay, MD (IPEG)

4:00 pm – 4:15 pm

Break

4:15 pm – 5:00 pm

JOINT KARL STORZ LECTURE: What can Surgeons Learn from Aviation

SPEAKER: Michael Sjö – Scandinavian Airlines Systems Pilot and Surgeon

INTRODUCTION: David van der Zee, MD, 2017 President

DESCRIPTION: This lecture will highlight the safety culture in healthcare and compare and contrast it to that of the aviation industry. Participants will learn the impact of human factors on safe healthcare and strategies on how to improve healthcare safety as a whole. Topics discussed will be applicable to all participants engaged in healthcare.

OBJECTIVES

At the conclusion of this session, participants will be able to:

- Highlight aspects of safety culture in healthcare and compare them to the aviation industry
- Demonstrate the influence of human factors on health care safety and illustrate how influential these may be.
- Recommend strategies to improve the safety culture in health care.

Michael Sjö from Sweden is a Captain in Scandinavian Airlines Systems (SAS), where he was employed in 1989. He was flying the DC-9 until January 2002, thereafter he flew the MD-80 until 2009 and since then the Boeing-737.

During 1995–1999 he mixed his flying with being a flight instructor on the DC-9 at SAS Flight Academy. He was there the project leader for the Human Factors office creating courses for pilots in this topic and also educating pilots in aviation medicine.

In 1999 he left SAS Flight Academy when he was recruited to SAS quality department where he was auditing within SAS as well as other airlines. He was assigned as the Vice President and Quality Manager for the entire company between 2003–2007 and responsible for all quality issues and all investigations within the company. Since he quit that position he has continued flying for SAS.

Michael is also a Medical Doctor specialized as a flight surgeon with civil and military competence. He has his own company and educates different groups in safety and quality issues mainly for the health care industry.

5:00 pm – 6:00 pm

IPEG/BAPS/BAPES JOINT SCIENTIFIC SESSION: Thoracic Surgery

MODERATORS: Niyi Ade Ajayi, MD (IPEG/BAPES) & Carl Davis, MD (BAPS)

Complete Schedule

6:00 pm – 6:30 pm

JOINT JOURNAL OF PAEDIATRIC SURGEON KEYNOTE LECTURE NON CME

SPEAKER: George “Whit” Holcomb, III, MD, MBA

INTRODUCTION: Mark Davenport, MD

Dr. George W. Holcomb, III was born in Osaka, Japan on December 11, 1953. He was raised in Nashville, Tennessee and attended elementary and high school in Nashville. He attended the University of Virginia for college and then Vanderbilt University School of Medicine. His general surgery training was at Vanderbilt and his pediatric surgery training was at the Children’s Hospital of Philadelphia. He began his pediatric surgery practice in 1988 as an Assistant and subsequently Associate Professor of Surgery in the Department of Pediatric Surgery at Vanderbilt. In 1999, he was recruited to replace Dr. Keith Aschraft as Surgeon-in-Chief and the Katharine B. Richardson Professor of Surgery at Children’s Mercy Hospital in Kansas City, Missouri. From 1999–2011, he also served as the Program

Director of the Pediatric Surgery Residency Training Program. In addition to being the Surgeon-in-Chief, he is also Senior Vice-President and Director of the Center for Minimally Invasive Surgery. In 2002, he was awarded an Masters in Business Administration (MBA) from the Henry Bloch School of Business at the University of Missouri-Kansas City.

Dr. Holcomb is a member of the American Pediatric Surgical Association, the American Surgical Association, the British Association of Pediatric Surgeons, and the European Pediatric Surgeons Association, among others. From 2008–14, he served on the Residency Review Committee for Surgery which accredits the general surgery and pediatric surgery residency training programs in the United States. He is best known for his interest in minimally invasive surgery in infants and children and his emphasis on evidence-based medicine. He is the author of over 240 peer-reviewed publications and 50 book chapters, and has been the editor of 5 textbooks. In addition, he has recently been selected to be Editor-in-Chief of The Journal of Pediatric Surgery.

Friday, July 21st

7:30 am – 8:30 am

SCIENTIFIC VIDEO SESSION II

MODERATORS: Satoshi Ieiri, MD & Merrill C. McHoney, MD

8:30 am – 9:30 am

JOINT SCIENTIFIC SESSION: Colorectal & Hepatobiliary Surgery

MODERATORS: Daniel J. Ostlie, MD (IPEG) & TBD (BAPS)

9:30 am – 10:00 am

Break

10:00 am – 11:30 am

JOINT EXPERT PANEL: Pediatric Surgical Training

CHAIR: Joe Curry, MD (BAPS)

CO-CHAIR: Celeste Hollands, MD (IPEG)

DESCRIPTION: This session looks at some of the challenges facing paediatric surgeons who are involved in education and training.

OBJECTIVES

At the conclusion of this session, participants will be able to:

- Understand in more detail the challenges faced by the modern surgeon educator.
- To be aware of potential methodology and practical points to improve the trainers involvement in surgical selection and education.

10:00 am Free Paper

10:35 am What Should We Look For When Selecting Trainees in Pediatric Surgery?
Georges Azzie, MD (IPEG) & Colin Baillie, MD (BAPS)

10:50 am What is the Evidence that Simulation Makes a Better Surgeon
Hugh Grant, MD (BAPS) & Katherine Barsness, MD (IPEG)

11:05 am The Surgeon as Surgeon and Educator – Is the Apprenticeship Model Relevant to Surgery in 2017?
Roger Kneebone, MD (BAPS)

Complete Schedule

11:30 am – 12:00 pm **JOINT KEYNOTE LECTURE: “Pioneering & Leadership” – A Message from Sir Richard Branson** NON CME

SPEAKER: Richard Branson, CEO Virgin

INTRODUCTION: Simon Clarke, MD, 2017 Program Chair

Richard Branson started Virgin as a mail order record retailer in 1970, Branson founded Virgin Records and opened a record shop on Oxford Street, London. Virgin Records went on to sign household names from the Sex Pistols to The Rolling Stones, becoming the biggest independent label in the world. There are now more than 100 Virgin companies worldwide, employing approximately 60,000 people in over 50 countries.

Since Branson founded Virgin Atlantic in 1984, it has established itself as a leading global airline. Expansion elsewhere has seen Branson become the only person to build eight billion dollar companies in eight different sectors.

Branson has challenged himself with many record breaking adventures, including the fastest ever Atlantic Ocean crossing, a series of hot air balloon adventures and kitesurfing across the English Channel.

Branson was awarded a knighthood in 1999 for services to entrepreneurship. He lives on Necker Island with his wife Joan and two children, Holly and Sam.

12:00 pm – 1:15 pm

Lunch

1:15 pm – 2:00 pm

SCIENTIFIC SESSION: Robotic & Single Site Surgery

MODERATORS: John Meehan, MD & Oliver Muensterer, MD

2:00 pm – 3:00 pm

SCIENTIFIC SESSION: Innovations NON CME

MODERATORS: Atul Sabharwal, MD & Thomas Inge, MD

3:00 pm – 4:00 pm

SCIENTIFIC SESSION: Urology MIS – JOINT with BAPES and ESPES

MODERATORS: Maria Marcela Bailez, MD & Ciro Esposito, MD

4:00 pm – 4:30 pm

Break

4:30 pm – 5:30 pm

SCIENTIFIC SESSION: Colorectal & Hepatobiliary Minimally Invasive Surgery II

MODERATORS: Long Li, MD & Atsuyuki Yamataka, MD

8:00 pm – Midnight

Friday Night Main Event & Dance Off! NON CME

NEW THIS YEAR!

Education Committee Activities

QUICKSHOTS

In an effort to bring IPEG into a new digital platform, we are offering our attendees an alternative to physical posters. IPEG will be conducting Quickshots sessions throughout the day on Friday, July 21st from 7:30 am – 10:00 am & 1:30 pm – 5:00 pm

LEARNING CENTER

Come see the NEW Learning Center! Open during Exhibit hours Thursday & Friday 9:30 am – 4:30 pm

IPEG would like to provide our attendees with a simulation based avenue of education. Featured stations will consist of simulators targeting basic laparoscopic skills such as:

- Basic Intracorporeal Suturing
- Advanced Intracorporeal Suturing
- Urology

IPEG's membership is filled with the diversity of backgrounds and approaches and this is our way of embracing this for educational purposes.

We look forward to seeing you there!

Complete Schedule

Saturday, July 22nd

- 8:00 am – 9:30am **SCIENTIFIC SESSION: Miscellaneous**
MODERATORS: Miguel Guelfand, MD & Lena Perger, MD
- 9:30 am – 10:15 am **General Assembly** NON CME
COMMITTEE UPDATES:
 - CME
 - Program
 - Development
 - Research
 - Education
 - Information Technology
 - JLAST Pediatric Editorial Board
 - Membership
 - Latin American Chapter
 - Middle East Chapter
 - President – Presentation of IPEG’s 2018 President
- 10:15 am – 10:30 am **IPEG Awards** NON CME
 - Coolest Tricks
 - Basic Science/Innovation
 - IRCAD
 - 2016 Research Winner Update – Ioan Sarbu, MD
 - Research
- 10:30 am – 11:00 am **EVIDENCE BASED SURGERY: Hypertrophic Pyloric Stenosis**
CHAIR: Dafydd Davies, MD
PRESENTERS: Giuseppe Retrosi, MD; Drew Rideout, MD; J. Duncan Phillips, MD; Karen Diefenbach, MD
DESCRIPTION: This session aims to present the accumulated evidence regarding the management of infantile hypertrophic pyloric stenosis. Several controversies exist including: is minimal access surgery safer, faster and/or less costly than conventional approaches; is medical management effective and/or efficient; does open surgery remain the gold standard in the management of pyloric stenosis and if not, what is required to gain competency in the minimal access approach? These controversies will be discussed and the data will be presented focusing the the levels of evidence and graded recommendations. This session is relevant to all levels of clinicians involved in the management of hypertrophic pyloric stenosis.
OBJECTIVES
 - Identify levels of evidence for management of hypertrophic pyloric stenosis.
 - Appraise the published evidence and apply levels of evidence.
 - Describe the evidence on risks, benefits and alternatives to conventional open pyloromyotomy.
- 11:00 am – 12:00 pm **VIDEO SESSION WITH EXPERT PANEL DISCUSSION: “My Worst Nightmare” – The Management of Unexpected Complications and Strategies for Future Avoidance**
CHAIRS: Samir Pandya, MD & Mike Chen, MD
DESCRIPTION: This session consists of video presentations of complications encountered in advanced MIS and a discussion of how the presenters managed them. Experienced MIS surgeons from different institutions around the world are asked to discuss their experiences and approach to these complications. This session is appropriate for pediatric surgeons who perform MIS
OBJECTIVES
 - Plan strategies to manage complications encountered during advanced pediatric MIS.
 - Recognize situations where complications may occur in advanced pediatric MIS.
 - Identify techniques to manage complications encountered during advanced pediatric MIS.
- 12:00 pm **Closing Remarks**
SPEAKER: David van der Zee, MD

Long Term Research Fund Donors

This year, IPEG members donated over \$17,000 to the Long Term Research Fund (LTRF), surpassing our previous year's numbers! We want to thank everyone for their generosity. The goal of the LTRF is to award grants to IPEG members for research, and you help to make that happen.

DONATE TODAY!

A Special Thank You to our Top Donors!
